

Oracle is the world's largest enterprise software company. Hitachi Consulting uses proven methodologies and tools to help companies reap maximum returns on Oracle investments. Our Oracle eBusiness and JD Edwards experts deliver high-value business strategies and solutions with rapid time to benefit.

Hitachi Consulting understands the business environments that benefit most from Oracle-based solutions, and use proven methodologies to help companies reap maximum returns on their investments.

A Alliance Overview: Oracle

About Hitachi Consulting

As Hitachi Ltd.'s global consulting company, Hitachi Consulting is a recognized leader in delivering proven business and IT solutions to Global 2000 companies across many industries.

Because we are a Hitachi company, we are uniquely positioned to help our clients improve profits, gain operational efficiencies and extend the life of their technology investments.

Hitachi Consulting works alongside client teams to understand their needs and to enable and implement key business strategies. We help companies understand their current environment and provide state-of-the-art yet practical solutions that provide measurable results quickly.

We leverage our extensive enterprise resource planning, customer relationship management, supply chain, and business intelligence knowledge to help businesses improve and succeed:

- Customer relationship profitability
- Customer responsiveness
- Business process integration
- Procurement costs
- Business change management

Our Relationship

Hitachi Consulting's expertise goes beyond pure systems implementations to include disciplines that create bottom-line results. With deep industry knowledge and a balanced view of strategy, people, process and technology, Hitachi Consulting creates a roadmap for business success. We lead with strategy and develop an integrated business environment using Oracle's tools and technology, ensuring you realize the greatest possible return on your investments.

To drive even greater value, Hitachi Consulting offers the Oracle Competency Center, a solutions lab where a client project team can gain familiarity with Oracle applications before implementing the business solutions. The Center accelerates our client's internal adoption of Oracle solutions by reducing the time-to-benefit, which translates into reduced costs and greater ROI. Using the Competency Center, our client teams and consultants work with the latest Oracle tools in a controlled environment. Throughout each engagement, we transfer knowledge along the way, ensuring you have the intellectual capital required to keep this Competency Center in optimal running order.

With Oracle's unique technology and architecture, Hitachi Consulting can provide you with the vital information you need to achieve your business goals.

A Alliance Overview: Oracle

Solution Offerings

Hitachi Consulting leverages its extensive Oracle eBusiness and JD Edwards product knowledge and experience to help firms improve customer relationships, and business processes, and to gain valuable business insights.

Customer Profitability

Hitachi Consulting provides distinct customer value using the Oracle suite of products (eBusiness, JD Edwards, Siebel, and Oracle Transportation Management). We enable businesses to focus on providing service to their most profitable customers, improving the bottom line, and increasing customer loyalty and satisfaction.

Customer Responsiveness

Through integrated Oracle applications, Hitachi Consulting helps companies drive operational efficiency by reducing supply chain waste and plant operation overhead. An Intelligence Framework sustains and supports these improvements, driving lead time visibility, order fulfillment, indirect cost control and cannibalism of product offerings.

Business Intelligence and Performance Management

Hitachi Consulting is a recognized leader in delivering practical Business Intelligence solutions to Fortune 1000 companies. Using a collaborative approach, we help you reduce costs, increase profits, improve efficiency, productivity and accountability, and provide the insight required to be successful.

Our Integrated Corporate Performance Management processes incorporate your Oracle technologies and corporate strategies, completing a top down view of your business throughout the transactional layers of the organization.

Business Process Integration

Hitachi Consulting creates smooth linkages between business applications and business workflows. We turn transactional data embedded within business systems into serviceable, usable information. We have proprietary accelerators to automate documentation, scripting, and system configuration activities allowing our teams to focus on creating real business value.

Real Business Value

Hitachi Consulting understands the business environments that benefit most from Oracle technology. We work through business-change issues to maximize implementations. Our unique Integrated Delivery Methodology coupled with our proprietary accelerator tools help companies rapidly unlock the value of their business through technology innovation and compressed solutions delivery. Our professional consultants offer a wealth of experience from a diverse mix of disciplines. We provide the right team, at the right time to meet your business challenges.

About Hitachi Consulting

As Hitachi, Ltd.'s (NYSE: HIT) global consulting company, Hitachi Consulting is a recognized leader in delivering proven business and IT solutions to Global 2000 companies across many industries. We leverage decades of business process, vertical industry, and leading-edge technology experience to understand each company's unique business needs. From business strategy development through application deployment, our consultants are committed to helping clients quickly realize measurable business value and achieve sustainable ROI.

Hitachi Consulting's client base includes nearly 30 percent of the Fortune 100 as well as many leading mid-market companies.
