

## Global SAP resources, focused on value realization

Success amid fierce competition for market share and sales requires you to optimize your SAP investments today, while also building the ability to identify and capitalize on emerging trends tomorrow. To help you achieve these goals, Hitachi Consulting combines industry expertise with a proven SAP track record to help transform your business and make a measurable impact on the bottom line.

### The Hitachi Consulting advantage

Hitachi Consulting simplifies the SAP experience by managing the entire lifecycle – from strategic planning and software licensing through implementation and ongoing support. We are your trusted partner for your complete SAP needs, with expertise that range from architecting complex global deployments to prototyping innovative solutions for Big Data analytics and mobile applications.

With more than 1,000 SAP engagements globally, our team provides end-to-end SAP solutions to help reach your business goals quickly and within budget. In fact, we have accelerated the time to value for our SAP clients by as much as 30%-50% leveraging an industry and solution best practices methodology.

### ROI driven approach

Hitachi Consulting designs strategic SAP solutions based on your unique business requirements. We excel at bringing the right competencies together to deliver

the maximum amount of return for your investment. Hitachi Consulting also provides added flexibility with financing options and multiple IT delivery models – including on-premises, hosted and managed cloud software as a service (SaaS).

Our SAP consulting expertise and technology resources can also help you co-innovate new capabilities at the Hitachi Consulting North America SAP Center of Excellence in Dallas, Texas. We work with you to prototype and test new solutions by combining SAP solutions that mirror your current environment with emerging SAP technologies. The enterprise-scale resources at our NA SAP COE help you mitigate risk, fine-tune your upcoming SAP projects before deployment, drive innovation and hone your long-term technology roadmap.

### Tier-One SAP partner benefits

We maintain the highest reseller and global services partnership levels with SAP. This reflects our comprehensive sales and support offerings across SAP's software and solution line, as well as our complete portfolio of design, build and run services. Additionally, our SAP Global Partner technology status provides you with access to the latest enterprise storage and converged solutions that are purpose-built for SAP.

**“Manufacturers can get a fast start with their SAP implementation using predefined business scenarios. ‘Live in Five’ is not just a slogan, and best practices are real, proven, industry-specific business processes, supported by trained implementation partners – Hitachi Consulting is an integrator with extensive industry experience and the necessary background to deploy SAP Best Practices.”**

- Greg Gorbach,  
ARC

## Depth of SAP solutions

We provide a full range of SAP offerings across the technology lifecycle, along with the expertise to help enable these solutions to accelerate your business.
