HITACHI
Inspire the Next

Accelerate your move to the cloud
Integrate cloud and on-premises applications

Meeting the challenge of the hybrid enterprise

Today it's easier than ever for lines of business (LOBs) to subscribe to software-as-a-service (SaaS) applications. But this can create a big headache for IT leaders tasked with integrating these new cloud apps with existing on-premises systems. With Oracle's cloud and on-premises integration solutions, you move from a complex integration architecture to a simple and agile platform that accelerates hybrid deployments, lowers costs, and increases business flexibility.
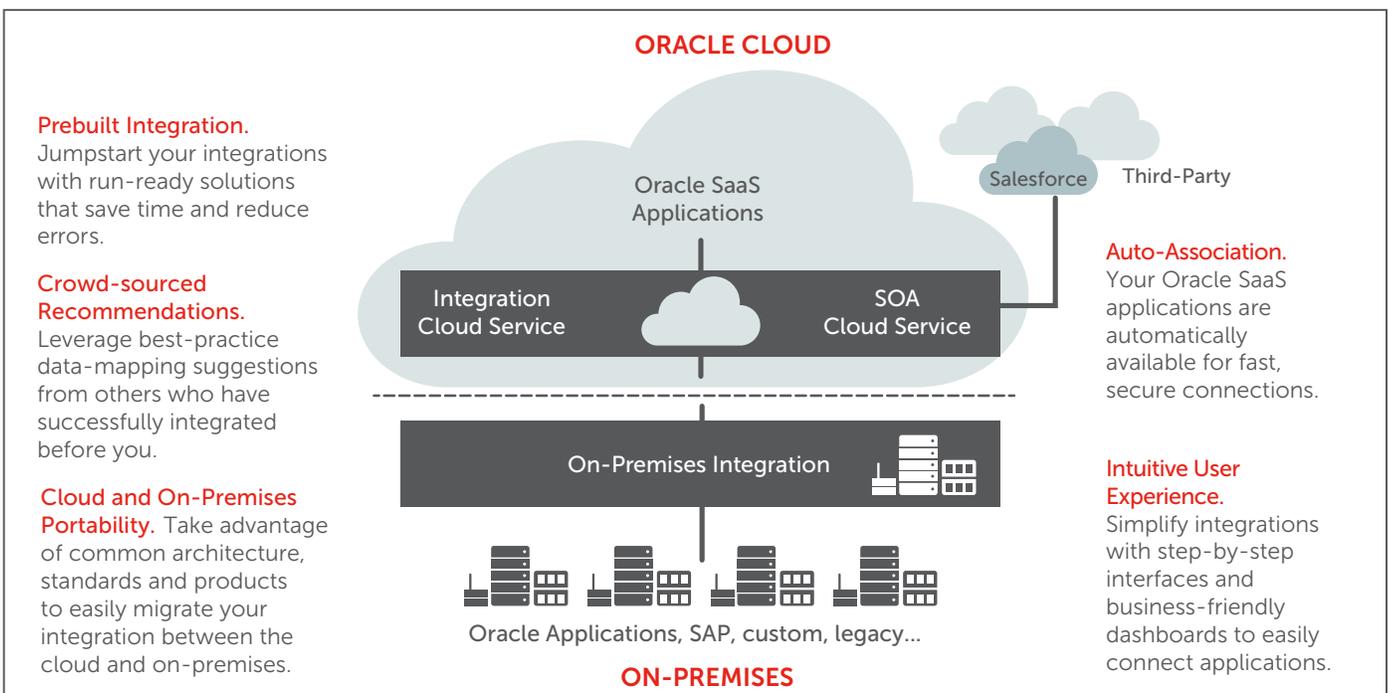

Use powerful integration tools and technologies

- **Oracle Integration Cloud Service** delivers a simple and intuitive solution to rapidly integrate your architecture.
- **Oracle Process Cloud Service** helps you rapidly design, automate and manage business processes in the cloud.
- **Oracle SOA Cloud Service and Oracle SOA Suite** provide a comprehensive and unified set of advanced components to seamlessly integrate on-premises and cloud applications and services.

ORACLE®

Leverage Oracle PartnerNetwork and Cloud Marketplace

- **Oracle Partners** can help you choose the best strategy, products and implementation path for your business.
- **Cloud Marketplace** contains a growing library of pre-built adapters and integrations, published by Oracle and Oracle partners.

ORACLE CLOUD

Prebuilt Integration.
Jumpstart your integrations with run-ready solutions that save time and reduce errors.

Crowd-sourced Recommendations.
Leverage best-practice data-mapping suggestions from others who have successfully integrated before you.

Cloud and On-Premises Portability. Take advantage of common architecture, standards and products to easily migrate your integration between the cloud and on-premises.

Oracle SaaS Applications

Salesforce   Third-Party

Integration Cloud Service

SOA Cloud Service

On-Premises Integration

Oracle Applications, SAP, custom, legacy...

ON-PREMISES

Auto-Association.
Your Oracle SaaS applications are automatically available for fast, secure connections.

Intuitive User Experience.
Simplify integrations with step-by-step interfaces and business-friendly dashboards to easily connect applications.

Driving business results with Oracle cloud integration

Reap the benefits

- **Speed integrations.** Drive faster time to market and higher IT productivity.
- **Boost business agility.** Rapidly switch between cloud and on-premises deployments and maximize deployment options.
- **Reduce cost and complexity.** Eliminate patchwork of disparate integration tools.
- **Empower LOBs.** Seize opportunities with business-friendly self-service tools and process control.

Hitachi Consulting has been at the forefront of the massive market shift toward cloud-based business. Yet many organizations will need to keep key IT systems on-premises for years to come. Leveraging our unique business-solutions approach and Oracle Cloud expertise, Hitachi Consulting helps each client achieve the business results they need with a single platform integrating all applications, data sources, and intelligent IoT devices.

> **"**Hitachi Consulting has been the ideal partner for our transformation journey — they bring real-world, pragmatic, experience of retail, Oracle solutions, custom development skills and a broad range of technologies. We are well-positioned for long-term global success.**"**
>

> CIO, Wiggle Ltd.

Hitachi Consulting's strategic framework for Oracle cloud

We support a variety of Oracle Cloud environments, including:

- **On-Premises Cloud.** Meet your requirements for on-site IT infrastructure while providing cloud-like economics and features.
- **Managed Dedicated Cloud.** Create a platform that combines cloud elasticity with on-premises features, such as dedicated computing capacity.
- **Managed Shared Cloud.** Keep critical production in a dedicated cloud, but assign dev/testing tasks to a more scalable shared environment.
- **Public Cloud.** Reap the full range of benefits of a highly elastic, cost-efficient, public Oracle Cloud.

Hitachi Consulting's offerings for cloud and on-premises integration

We help you create a platform that is cost-effective, agile, and low risk.

- **Advise.** Start your cloud journey intelligently by defining the benefits, assessing your cloud readiness, and setting a smart migration strategy.
- **Enable.** Prepare for your journey by designing and building your cloud; then migrate to SaaS, PaaS, and IaaS, and modernize your enterprise to be cloud native.
- **Operate.** Fast forward to the future with accelerated deployments and managed services to rapidly reap the benefits of a more nimble and efficient cloud platform.
